

*Online File Histories, from REEDFAX, make portability a breeze.*

*There's a good chance we already have your file on hand!*

*We like to hear your feedback on all of our products & services. Drop us a line at [email@reedfax.com](mailto:email@reedfax.com)*

## REEDFAX's File History Collection

Reedfax has been collecting Patent File Histories since we started scanning them, years ago. We've now amassed a large collection, and we make this available to you. Typically, a full 25% of our file history orders are for files we already have in our library.

What does this mean to you? Quicker service. If we already have the file, it is simply a matter of posting it to our website, writing it to a CD-ROM or printing it out. Our collection is growing every day!

To see if we have the file you're looking for, call Reedfax Customer Service at 1-800-422-1337.

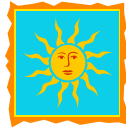

## Meeting our Public

We always enjoy meeting our customers in person. Each year we travel to several industry tradeshows – and delight in talking with people. In June, Reedfax was at the Special Libraries Association's annual meeting in Toronto, Canada. We extend a warm thank you to all that stopped by.

*Wishing you  
continued  
success  
throughout 2005!*

If there are any professional associations that YOU belong to – and think we would fit in as a sponsor, please let us know. We're always looking for additional venues!

## Summer Themed Patents

5,074,437	Dec. 1991	D'Andrade	Pinch trigger water gun
5,150,819	Sep. 1992	Johnson	Double tank pinch trigger water gun

## New Product Spotlight

### New intellectual property management tool

A new patent tool, from our parent company, LexisNexis®.

Market trends indicate that new product development, branding strategies, and intellectual property regulation will drive increases in intellectual property work. The USPTO is expecting a continued increase in patent filings in the years ahead. We at LexisNexis® think there's an increased need for IP management tools, as IP professionals must manage large portfolios of patents.

LexisNexis® Patent Optimizer helps IP professionals create stronger patent applications and better analyze patents at issue in litigation. You can be more confident that your patent prosecution and litigation work is thorough, accurate, and efficient.

This powerful new tool is integrated into both Microsoft Word and Microsoft Internet Explorer. Closely tied to the LexisNexis Total Research System at [www.lexis.com](http://www.lexis.com), it lets you see patents and cases that have referenced key terms and link to them directly. You can also analyze and produce reports on

*Nothing quite like  
it!*

key term usage across claims and descriptions.

- When you enter a patent number in your document, **Patent Citation** looks up the title, inventor, country, and issue date automatically, as well as linking to the full text of that patent.
- **Check Terms** checks highlighted terms for prior usage in other patents, case-law references, and suggested alternative terms with the option to generate reports detailing all three terms analysis features.
- **Mark Terms** automatically loads *Attorney's Dictionary of Patent Claims* and Elsevier Science *Compendex®* publications and then scans the patent highlighting relevant terms that match.
- With **Check Claims**, quickly see terms used in claims that are not used in the description, as well as the various claims in which each term is used and a hierarchy of term usage across independent and dependent claims with optional reports generated in one click.
- Confirm consistent language across part descriptive labels, and modify labels and part reference numerals as needed with **Check Figures**.
- **Drafting Options** allow for customization of various components while drafting, for easier conversion to United States Patent and Trademark Office (USPTO) compliant documents.
